Summary

Full stack engineer with 11+ years in production. TypeScript and Python across web applications, AI agent platforms and infrastructure. Four years as Tech Lead of a computer vision product, leading a cross functional team of about 15. React Native and Expo apps shipped to iOS and Android. Part time Ph.D. research in agentic AI.

Experience

Senior Full Stack Engineer

Jun 2025 - Present

HeyDonto AI · Remote

- Co own the product layer of an internal developer platform where AI agents take a ticket to a tested, reviewed pull request (React, FastAPI, Claude Agent SDK on GCP and Kubernetes).
- Made AI agent runs reliable: each run gets its own isolated environment, and deploys no longer interrupt work in progress.
- Moved a core data mapping engine (about 50,000 lines) into a single package without changing its behavior or the data contracts other teams depend on.
- Drive framework and architecture decisions for the product layer and document them as ADRs, including a frontend migration to Next.js.

React · Next.js · FastAPI · Claude Agent SDK · GCP

Principal Software Engineer, Tech Lead

Jun 2021 - Jun 2025

Algotive · Guadalajara

- Tech lead of an on premise video analytics product for public safety operations. Led a cross functional team of about 15 (backend, frontend, ML and data science, DevOps and product) and ended up owning the product end to end.
- Put forensic vehicle search and multi camera re identification into production, with all AI processing on the customer's own servers.
- Scaled GPU inference (NVIDIA Triton) to 64 concurrent video streams on a single GPU.
- Added 2FA, role based access control (RBAC) and audit logging for government deployments.

Python · NVIDIA Triton · React · Electron

Senior Full Stack Developer

Jan 2018 - Jun 2021

Jalisco State Prosecutor's Office · Guadalajara

- Built web systems used by more than 1,000 staff and replaced paper based processes, working with the people who used them every day.

PHP · JavaScript · SQL · REST APIs

Aug 2017 - Jan 2018 · Finished my B.S. in Computer Systems Engineering

Full Stack Developer

Jul 2014 - Aug 2017

Guadalajara Municipal Police · Guadalajara

- Built internal platforms, dashboards and APIs for public safety operations. Gathered requirements from end users myself.

Independent product

Conomi · Creator

Aug 2024 - Present

A personal finance app for credit cards, installment purchases and recurring payments in Mexico. React Native and Expo, live on iOS and Android since July 2026. Product UX, implementation and store delivery.
conomi.app · App Store · Google Play

Technical skills

Languages	TypeScript, Python, JavaScript, SQL, PHP, Go, Rust, C# / .NET
Frontend & mobile	React, Next.js, React Native / Expo, Electron, Tailwind
Backend	Node.js, NestJS, FastAPI, REST APIs, gRPC
Data	PostgreSQL, Redis, Kafka, Temporal, FHIR
Cloud & DevOps	GCP, AWS, Kubernetes, Terraform, Docker, CI/CD (GitHub Actions)
AI	LLM agents (Claude Agent SDK), NVIDIA Triton, YOLO, embeddings
Communication	Spanish native · English B2 · US team experience

Education

In progress · Ph.D. in Information Technology, University of Guadalajara. Part time, research on agentic AI.
2022 · M.S. in Information Technology, University of Guadalajara
2017 · B.S. in Computer Systems Engineering, University of Guadalajara
